

HR Overview

OrderlyMeds + Time Bandit Lifestyle Benefits

The Problem & The Opportunity

Today's workforce is struggling. Burnout, poor time management, and lifestyle-related health issues like obesity are taking a toll on productivity, engagement, and overall well-being.

- 70% of U.S. adults are overweight or obese.
- Many employees, especially Gen Z, lack structure and struggle to adapt to work-life demands.
- GLP-1 medications are effective—but dropout rates are high without lifestyle support.

This creates a powerful opportunity: Combine effective weight loss treatment with habit and lifestyle coaching to drive real, lasting change.

Time Bandit + OrderlyMeds

The [Time Bandit](#) program helps employees manage stress, prioritize tasks, and build daily habits that improve focus and productivity.

- Online training course
- Mobile habit and priority tracking app
- AI habit coach (HabitBee)
- Ideal for Gen Z and early-career professionals needing structure and focus.

[OrderlyMeds](#) provides convenient, medically supported access to GLP-1 medications and weight loss guidance.

Features:

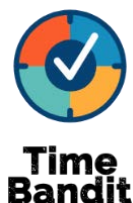

- Online clinical screening
- Access to leading weight loss prescriptions
- Medication delivery and virtual support
- Flexible for employee (HSA/FSA). No employer cost
- Whole-Person Health
- Higher adherence to GLP-1 programs
- Lower stress and emotional triggers for weight regain
- Reinforced health behaviors through habit coaching
- Stronger employee engagement and retention

Business Benefits

- Reduced healthcare claims
- Improved productivity and focus
- Higher retention and job satisfaction
- Strong appeal to Gen Z and Millennial workforce
