

Regency's Rapid Growth and Expansion Continues

Pet aftercare service provider expands with three new partnerships across the Midwest

Baltimore, MD January 12, 2020 - [Regency Pet LLC](#) announces today its new partnership with [Hinsdale Pet Memorial Services](#), the premier pet aftercare services provider in the Midwest. This expansion includes [Hinsdale Animal Cemetery and Pet Crematory](#) in Willowbrook, Illinois, [Rolling Acres Memorial Gardens](#) in Kansas City, Missouri and [Loving Hearts Pet Memorial Services](#) in Eureka, Missouri. Regency continues to expand its service delivery across the United States, with providers in the Northeast, South, Midwest and Western United States.

"We are thrilled to begin our presence in the Midwest. The Remkus family has built a premium brand and our combined portfolio includes some of the most reputable pet crematories and cemeteries in the United States," stated **Scott Buttz, President and Chief Operating Officer at Regency**. "Our new partnership with Hinsdale Pet Memorial Services has advanced our vision in becoming the nation's leading pet aftercare services provider, known for bringing together the most highly-respected family-owned business and supporting them with Regency's focus on innovation and compassionate care consistently across the country."

Formal transitions are underway and veterinary partners and pet owners can expect an update from the Regency team this month. The Remkus family will continue to be involved in the day-to-day operations to ensure a smooth and seamless transition of this new partnership in the immediate future. The company is also excited to announce Jon, David and Kari Remkus will be assuming long-term senior positions with Regency. The team will advance expansion and build a premium national pet aftercare business dedicated to serving pet families, independent veterinary practices, as well as regional and national veterinary practice groups from coast to coast. As long-standing leaders in the industry, the Remkus family was responsible for the 2001 Companion Animal Creation Act and actively involved in legislation to continue to advocate for deceased pets and their owners.

"Pets are family," said **Jon Remkus**. "For nearly a century our family has provided pet parents a sense of peace in an incredibly difficult time. It was important to me and my siblings, David and Kari, that we partner with an operation that share the same values and commitment to transparency that Hinsdale has for generations."
