GameDay Pro

"Game day, made easy."

Available in the [Apple App Store](#) and [Google Play Store](#)

GameDay Pro is a digital app that greatly simplifies sports game attendance management by allowing players to RSVP directly to game organizers. Organizers get real-time attendance tracking -- replacing outdated and inefficient manual processes with a modern, hassle-free solution.

Key Features

- ☑ **SMS Game Day Notifications:** Reminders with game or practice details
- ☑ **Two-Tap Player Confirmation:** Quick and easy attendance confirmation
- ☑ **Auto-Update Player List:** Real-time player updates for admins and game organizers
- ☑ **Role-Based Access:** Multiple permission levels for different users – Club Administrators, Game Organizers, Players
- ☑ **Game Scheduling:** Establish games & practices, set days and times, configure notifications
- ☑ **Push Notifications:** Administrators can send custom messages to registered users, anytime ("One hour weather delay!", "Change of venue.", "Practice cancelled for today.")

Secure Technology Stack

Engineered to protect against common security vulnerabilities.

- ☑ **Frontend:** (Mobile App): React Native
- ☑ **Backend:** PHP Symfony
- ☑ **Database**: MySQL/PostgreSQL
- ☑ **Authentication:** JWT-based authentication
- ☑ **SMS Service:** Twilio
- ☑ **Push Notifications:** Firebase Cloud Messaging (FCM)

Not Just for Sports

GameDay Pro is the perfect complement to any recurring event that requires an RSVP.

- ☑ Youth Sports Leagues
- ☑ Game Nights & Social Clubs
- ☑ Book Clubs & Discussion Groups
- ☑ Volunteer Events
- ☑ Recurring Committee Meetings

User Journey

1. Download and register
2. Choose your games
3. Tap to confirm attendance

GameDay Pro Advantages

- ☑ Faster, more efficient, and more reliable player confirmations
- ☑ Real-time updates and notifications
- ☑ Flexible admin controls with easy-to-use interface
