Platform Overview

GeoProspectivity360 is a cutting-edge Generative AI Platform designed specifically for M&A, economists, project planners, owners, study managers and C-suite executives who need to make informed feasibility decisions with comprehensive geospatial intelligence. *See* https://www.geodatadecisions.au/gp360 for a walk though, it is impressive.

Key Capabilities

1. **3D** Globe Visualisation**:** Interactive mapping platform dynamically displays selected data layers, allowing users to visualise complex geospatial relationships intuitively.
2. **AI-Powered** Intelligence**:** Integrated GenAI across all selected datasets enables users to ask **voice or text-based** questions receiving insights instantly.
3. **Comprehensive** Data Integration
   o **Public Datasets**: National and state-wide publicly available *see* the catalogue for scope.
   o **Private Data**: Seamless integration of your proprietary datasets
   o **Metadata Access**: Click anywhere on the map for detailed information layers
4. **Rapid** Deployment: Get a fully customised platform in just 2–3 weeks, with the option to deploy on your cloud.

Data Catalogue

Our comprehensive catalogue includes:

- **Mineral** deposits, tenements and geological information (e.g., exploration licences, surface geology, mines)
- **Environmental** impact data (e.g., vegetation, national parks, fire risk)
- **Infrastructure** mapping (e.g., solar farms, wind farms, rail, roads, telecoms)
- **Regulatory** and compliance information (e.g., water protection, flora reserves, biodiversity)
- **Plus**, seamless integration of your private dataset.

Pricing Structure

- **Platform** build & deployment: Affordable, best value one-time fee
- **Ongoing** service: Fully managed, minimum 3-month commitment

Monthly Package	Monthly Cost (AUD)	Datasets	AI Queries	Features
Starter	$1,300	Up to 10	50/month	Complete platform access
Professional	$1,800	Up to 10	100/month	Enhanced query capacity
Advanced	$2,600	Up to 20	50/month	Expanded dataset integration
Premium	$3,200	Up to 20	100/month	Full-scale deployment

- **Enterprise** Solutions: Where 20+ datasets and 50+ queries, contact us for custom pricing tailored to your specific requirements.

Fully Managed Service

Your investment includes comprehensive managed services covering:

1. Platform **Monitoring:**   Continuous performance tracking and system health monitoring
2. Data **Management:**   Regular updates and maintenance of selected datasets
3. Technical **Support:**   Ongoing platform support and user assistance
4. Performance **Optimisation:**   Regular system enhancements and feature updates

Next Steps

Ready to transform your decision-making process with intelligent geospatial analysis?

Contact us today to:

- Schedule a personalised demo
- Discuss and review your specific data requirements
- Begin your 2–3-week deployment process
