

Press Release

**RESERVOIR unveils the GT TOUR BLACK SKELETON
for its first participation to the 24 Hours of Le Mans 2020
as the official watchmaker of the IDEC SPORT racing team**

September 2020

First engagement to the 24 Hours of Le Mans 2020

The Maison Horlogère RESERVOIR is proud to announce its partnership to the 24 Hours of Le Mans 2020 with the IDEC SPORT racing team 19 et 20 septembre 2020. To celebrate this partnership, RESERVOIR will unveil at the beginning of September 2020 a new model GT Tour Black Skeleton, in a limited edition of 24 numbered pieces "IDEC SPORT Edition 2020".

Each of these 24 pieces will be installed in the LMP2 IDEC SPORT racing car which will compete in the 24 Hours of Le Mans 2020. Each case will thus have experienced the race in a unique way, symbolizing the determination and daring of IDEC SPORT teams like that of RESERVOIR, to compete this legendary race.

The 24 customers who will take possession of their watches from November 2020 will receive an exceptional invitation to attend the 24 Hours of Le Mans, 2021 edition (pre-race or race, excl. transportation and accommodation), and meet the IDEC SPORT team in action in the paddock, as well as an exclusive meeting with RESERVOIR's entrepreneurial team. The set is packaged in a precious wooden box, including a miniature model of the car and an additional NATO strap.

Legendary car races are the essence of GT Tour watches. Racing cars, competition, exhilaration of speed, the senses are on constant alert. With determination, the GT Tour is a symbol of performance and courage. Discover the GT Tour collection: <https://www.reservoir-watch.com/en/collections/cars/gt-tour/>

Horloger officiel d'IDEC SPORT

The Maison Horlogère RESERVOIR is proud to announce its partnership with the IDEC SPORT racing team as the official watchmaker for the 2020 season.

This French collaboration is the result of meetings between men driven by a taste for entrepreneurship and surpassing oneself. Three values illustrate this: bold to be entrepreneur in their respective businesses such as watchmaking or real estate, the determination to succeed at an international level, the authenticity of the passionate men who make up their teams.

Patrice LAFARGUE, Founder and CEO of the IDEC group: *"We are delighted of this new adventure with RESERVOIR and the IDEC SPORT team. The values conveyed by the brand correspond well to those of IDEC SPORT and our common passion for motorsport"*.

François MOREAU, Founder and CEO of RESERVOIR: *"I am particularly proud to see RESERVOIR become the watchmaking partner of the formidable IDEC SPORT team whose teams carry values very similar to ours: bold, authenticity, determination, taste for performance and overtaking. We also share a deep passion for motorsport, and I am therefore very happy to develop this collaboration with the IDEC group"*.

The 24 Hours of Le Mans

The 24 Hours of Le Mans is the oldest and most renowned competition in endurance racing. Held annually since 1923 in the French city of Le Mans, four classes of sports cars compete for 24 hours to determine who can complete the most laps before the checkered flag falls. The race is famous for testing the endurance of racing drivers as well as the ability of cars to go as fast as possible without sustaining mechanical damage.

About the IDEC Group

IDEC SPORT is the sports branch of the IDEC Group, which brings together all the partnerships under a single banner. If Patrice LAFARGUE (President of the IDEC Group and of IDEC SPORT) has a real passion for motorsport, his competitive spirit has led him to invest in several sports, whether in football, Rugby or even Basketball. But the two most important are sailing and the automobile.

Sailing with the navigator Francis Joyon, a story that has lasted for more than 18 years. This partnership, which has turned into a deep friendship, is covered with success since the current maxi-trimaran IDEC SPORT is the holder of the Jules Verne Trophy (crewed round-the-world tour in 2017 in 40 days, 23 hours and 30 minutes) and won the Route du Rhum 2018 after an incredible duel with François Gabart.

It was in 2015 that Patrice LAFARGUE, passionate about motorsport, decided to create the IDEC SPORT team. An adventure also crowned with several successes and which confirms the level of performance of which the whole team is capable. Engaged for several years on the ELMS circuit and the 24 Hours of Le Mans, Team IDEC SPORT in 2019 won the title of European champions thanks to two victories and four podiums.

About RESERVOIR

French watchmaking house with Swiss Made collections.

Taking its inspiration from vintage measuring instruments, RESERVOIR watches reflect the functionality and aesthetic appeal of counters, manometers, gauges from three universes: automobile races, military aviation, and diving / submarines. RESERVOIR timepieces are innovative thanks to a radical time display, by combining three horological complications. The retrograde minute at 240° recalls the R.P.M. counters, the jumping hour recalls mileage meters and the power reserve display echoes the fuel gauges. The assortment is built around seven collections and 29 models, all equipped with a bespoke and patented module of 124 components associated with an ETA-2824 movement. All models are assembled in Switzerland by a renowned watchmaker, the same company who created the Opus 14. Distributed in 20 countries – including the United States, Japan, France, China and the United-Kingdom – on-line and through a prestigious network of 70 up-scale department stores and specialist dealers, the core range is set at a content price of €3,850. Presented annually at Baselworld, the new models received outstanding reviews from the world watch media and were already nominated twice for the GPHG (Geneva Grand Prix of Watchmaking) in 2018 and 2019.
