EXPERIENCE BREATHTAKING UNDERWATER WORLDS, VIBRANT CULTURE,
UNFORGETTABLE ENCOUNTERS, AND THE TRUE SPIRIT OF BALI.

10 DAYS 9 NIGHTS PROGRAM

alessandra@thediveverse.com

A journey through ocean, culture and island life

When designing this journey, we chose to focus on quality rather than quantity, following the philosophy that has always inspired our way of travelling.

This is your holiday, and our goal is not simply to show you Bali, but to help you experience it.

Bali is far more than a tropical destination. It is a unique blend of spirituality, breathtaking landscapes, vibrant traditions, welcoming people and a pace of life that invites you to slow down and appreciate every moment. For this reason, we have carefully designed an itinerary that combines underwater exploration, cultural discovery, relaxation and authentic local experiences.

To ensure the highest standards of organization, logistics and local knowledge, we are proud to collaborate with **Bali Secrets Diving Safari**, a well-established and highly respected operator with many years of experience in organizing diving and travel experiences throughout Bali. Their in-depth knowledge of the island, combined with our passion for creating memorable journeys, allows us to offer an experience that is both authentic and professionally managed.

Whether you are a diver or a non-diver, this journey has been created to allow everyone to share the experience together. While divers explore some of the world's most fascinating underwater environments, accompanying guests will discover temples, rice terraces, volcanic landscapes, traditional villages and the countless details that make Bali such a special place. Throughout the trip, you will be personally accompanied by Ale, Lollo and the BSDS Leaders and guides.

We strongly believe that travelling with experienced hosts who know the island, understand its culture and speak your language adds enormous value to the overall experience and allows you to travel with complete peace of mind.

Our journey begins in Sanur, where Bali gently welcomes visitors with its relaxed atmosphere and coastal charm. We then move to Tulamben, a place where volcanic landscapes meet the ocean and where Bali still preserves much of its authentic character.

For divers, Tulamben is also considered one of the world's top destinations for macro photography and nudibranch observation.

For this reason, the trip includes an SSI Nudibranch Workshop dedicated to the discovery, identification and observation of these extraordinary creatures.

The SSI Nudibranch Ecology certification is available upon request.

Every day has been carefully planned to create memorable experiences while maintaining the flexibility that allows us to adapt to local conditions and the rhythm of the group.

Because Bali is not simply a destination.
It is a place to be experienced.

Around the Globe – Powered by Diveverse

Travelling has never simply been about reaching a destination for us.

For over twenty years, the ocean, travel and discovery have shaped both our professional and personal lives. Through Diveverse, our home in the Red Sea, we have welcomed divers and travellers from all over the world, sharing experiences that go far beyond diving itself.

Around the Globe was born from the desire to bring the same philosophy to selected destinations around the world: carefully designed journeys, authentic experiences, small groups and the reassurance of travelling with people who genuinely care about every detail.

We personally accompany our groups because we believe that the difference between a good holiday and an unforgettable journey often lies in the people you share it with. Our role is not only to organize logistics, but to help you discover a destination through local culture, hidden corners, meaningful experiences and those unexpected moments that often become the best memories.

For our Bali Sea & Soul journey, we are proud to collaborate with **Bali Secrets Diving Safari**, one of Bali's most experienced and respected local operators. Their extensive knowledge of the island, combined with our travel philosophy and personal assistance, allows us to offer a truly unique experience both above and below the surface.

Whether you are a diver, a traveller, a photographer, an adventurer or simply someone looking to discover a different side of the world, our goal remains the same: To help you experience a destination, not just visit it.

We look forward to sharing Bali with you.
