

AIR CLN

What to add to your check-out messages.

You can add this verbiage to your check-out templates. Providing guests clear expectations and instructions helps them understand what is needed from the operation. With clear instructions, many guests will take it upon themselves to take extra care of your property.

Check-out template addition:

"....my team appreciates when the dishes are started in the dishwasher and the used towels are placed in the tub/shower..."

Asking if there is anything they can do to help before they go:

"Thank you for reaching out, I am so happy to have you as such a great guest! My cleaning team appreciates when the used towels are in the tub/shower and dishes are started in the dishwasher. Other than that, we hope to host you again soon and have safe travels!"

Variation No dishwasher: "...dishes are washed and drying on the counter..."

AIR CLN

Clean. Fresh. Right.
