FOUNDING 2026 | INVITATION TO INSTITUTIONAL PARTNERSHIP

Jefferson-Kościuszko Forum

POLAND | UNITED STATES SCIENCE | BUSINESS | POLICY | INNOVATION

LAUNCHING IN 2026

Beginning with focused bilateral collaboration and built over five years into a premier annual Poland-U.S. forum.

A Poland–United States platform designed not only to convene leaders, but to identify shared problems, build cross-border teams, launch pilot initiatives, and translate successful ideas into scalable solutions.

WHAT THE FORUM IS

A recurring Poland-U.S. platform with an annual flagship and year-round working groups. It brings senior leaders across government, business, academia, healthcare, science and philanthropy together around shared priorities, collaboration and implementation.

WHY IT MATTERS NOW

The bilateral relationship is strong, but much activity remains sector-specific. Both countries face common transitions in AI, healthcare, energy, security, advanced industry and talent. The Forum creates a trusted cross-sector meeting point for practical collaboration.

VIRGINIA: HISTORIC ANCHOR, NATIONAL GATEWAY

Rooted in the Jefferson-Kościuszko story, Virginia offers historic context, proximity to Washington, D.C., and access to major universities, health systems and research institutions. As a gateway, it connects with and complements Polish-American initiatives nationwide.
