

ENZYT

BACTERIAL CULTURE

- **E.P.A. accepted bioremediation agent**
- **Effective for land or water**
- **Non-toxic * ECONOMICAL**
- **Easy to use**

771 ENZYT CRYSTAL is a concentrated, commercially pure culture of super concentrated *Bacillus subtilis* preserved and dispersed on an inorganic, inert, soluble salt. These micro-organisms occur commonly in the ordinary natural environment of both water & soil. This means that the organism is (1) not introducing into nature any genetically- engineered elements whose impact would be unknown and therefore potentially hazardous and (2) viable in soil and water within the use specifications. Neither ENZYT nor the organisms in ENZYT are toxic agents.

WHERE:

hotels/motels * plants * schools * institutions *
municipalities * contractors * restaurants * office
buildings

FOR:

grease traps * odor control * carpet cleaning * porta-
toilets * septic tanks * travel trailers * wet wells *
down pipes

INSTRUCTIONS

PREPARATION: Mix one packet of **771 ENZYT** with one gallon of Devour non-toxic liquid. Shake the container to mix components well. Let it set for 20 minutes. Devour is now ready to apply to the area requiring cleaning. **PRODUCT MAY THEN BE DILUTED WITH 50 PARTS WATER.** **APPLICATION:** Apply product to the surface requiring cleaning. Clean surface completely with as much agitation as possible. Wait 5 minutes or longer. Rinse thoroughly with water hose, using plenty of water. **NOTICE:** Within a few hours the oil will be completely bio-degraded and can be used by plants and aquatic life for food.

SPECIFICATIONS:

Boiling Range: N/A

Color: Off-white

Detergency: Excellent

Evaporation Rate: <1

Flash Point: N/A

Foam Stability: Medium

Fragrance: N/A

Freeze/Thaw: 3 Cycles

Hard Water Tolerance: Excellent

pH: 10.0

Rinseability: Excellent

Shelf Life: One Year +

Soap Content: None

Solids: 100%

Solubility: 100%

Vapor Density: >1

Vapor Pressure: 20

%Volatile: 86

For Industrial Use Only
