#### INSTRUCTIONS

**DIRECTIONS:** Wear face shield, gloves, & apron to protect face, eyes, and other body portions when using. May cause eruption of hot acid when poured into drain. After pouring acid into drain, immediately place inverted dish pan, bucket or other deep container over drain opening to protect against possible eruption of drain contents and acid. **NOTE:** Since grease traps and drains vary in size and condition, allowances must be made for the kind and quantity of material to be dissolved. Pour product slowly. **FLOOR DRAINS:** Apply 1 quart. Allow to stand for 15 minutes and flush with water for 5 minutes.
