# CAPABILITY STATEMENT

## E-Choice Solutions, LLC

E-Choice Solutions, LLC is a Texas-based AI Consulting Firm founded in 2018. The company helps government agencies, educational institutions, and businesses adopt artificial intelligence to improve how they work. Its services focus on AI strategy, process automation, and intelligent system design.

## Core Competencies

- **Artificial Intelligence Auditing:** Review existing business processes and data environments to determine where AI is currently used or being considered.
- **AI-Enhanced Web & Application Development:** Build modern digital products (websites, enterprise applications) with embedded AI functionality (e.g., chatbots, agents).
- **AI in Education and Learning Technology:** Design AI-driven instructional systems, adaptive learning models, and microlearning content.

- **AI & IT Staffing and Talent Solutions:** Source and augment teams with qualified professionals, including AI engineers, data specialists, instructional technologists, and developers.
- **Small Business AI Solutions**: Guide small businesses through guided AI tool adoption to accelerate ideation and launch phases.
- **SharePoint Platform Development:** Design, develop, and optimize SharePoint environments that streamline document management and collaboration. Implement integration with Microsoft 365, Teams, and automated workflows using Power Platform tools.
