

Beatriz Alvarez – Galderma Global Supply Chain & Operations Leader

I had the pleasure of working with Danny as a Consultant at the beginning of my journey at Galderma. Together we built the first version of Data & Analytics function from the ground up. Beyond his technical skills and strategic mindset, what truly stood out was his genuine partnership, his coaching ability, and his commitment to making things work. It was a real pleasure working with him.

Bea

Raúl Alfonso Jiménez Morocho – Galderma Supply chain Excellence

Working with Danny has been a pleasure, having a professional like him helped me to have a smooth transition into my new role and the previous work that he did helped me to implement new process and move things in a short period of time.

Kurt Huysmans – Partner CNT Management Consulting

It was a pleasure to work with Danny as SAP S/4HANA project manager and test coordinator with a client in the public sector. He is professional, communicative and has great skills to act as a trusted advisor. I would recommend everybody to work with him.

Danny is very knowledgeable in everything SAP-related, but what's equally important is that he really cares about his colleagues, teams, and people generally. I had a great time working with him! He has tons of experience, and he is very eager to share it with others.

Amira Cvijanović - SAP Consultant at Sapphir d.o.o.

I had an opportunity to work with Danny on a great SAP project in Slovenia. Despite being a solution architect, he took time to mentor quite a group of consultants - at very different levels of knowledge. He gave me few very good advices that helped me on my professional path. Thank you, Danny, and looking forward working with you again!

Jovana Lazić - SAP MM Consultant at NTT DATA

I had the pleasure of working with Danny and can confidently say that he is an exceptional team lead and mentor. His communication style is open, direct, and timely, which made working with him both productive and enjoyable. He focuses on developing common goals and adjusting his leadership style in order for each individual to achieve them. Danny consistently provided valuable feedback, was always available for support, and demonstrated a strong work ethic. His knowledge and expertise in SAP are truly impressive. I highly recommend Danny as a mentor and person with whom you can grow both personally and professionally.

Nada Arežina - SAP MM/SD Team Lead

All my praises go to Danny. It has been a pleasure collaborating with you, as your spirit is what gives a boost to the people around you. Thank you for teaching us many things and always taking the time to explain everything properly. Danny is a versatile personality and a treasure trove of knowledge, which he generously shares with his team. I hope we will have the opportunity to collaborate again, both professionally and

personally. The SAP journey was much more interesting with you, and I believe many more beautiful and exciting journeys await you in your career. The sky's the limit for Danny! 🍀

Nemanja Gojović - SAP PP Consultant at NTT DATA Business Solutions

I worked with Danny for about a year, which was enough for me to tell that Danny possesses an impressive ability to inspire and motivate team members. He exhibited a deep understanding of everyone's strengths and weaknesses, as well as successfully motivating everyone to grow both personally and professionally. He encouraged open communication, valued diverse perspectives and created a work environment that everyone enjoyed.

Furthermore, Danny possesses a real in-depth understanding of SAP and he is always there to make complex SAP concepts accessible and easy to understand.

Ronel Dielissen - Vml CEO Heidelberg Materials

Thank you, Danny, for your dedicated and passionate support in implementing SAP across our logistics, commercial, and financial processes. You're both an expert in your field and a pleasant colleague to work with.

Aivaras Balionis - SAP PP/PP-PI Consultant, SAP E2E Solution Architect.

Before I joined Danny's team I thought that the days when SAP projects are implemented by a small and efficient team are long gone. Danny owned the project from start to finish. He managed requirements and customer expectations. He handpicked and guided his team. Danny streamlined the process of turning requirements into deliverables. Despite having fewer team members than fingers on both hands we delivered a huge scope in a very short time.

Bartosz Hejduk - Lead/Senior ABAP Developer, SAP Consultant

Danny has a great skill of having a constant overview of the whole problem keeping a great attention to tiny details at the same time. There is always a method and a well-thought approach behind each solution he provides. His interpersonal and leadership skills are legendary and he is a true, committed leader that you can always rely on. He is not afraid of tough choices and would be suitable to sort out even the biggest mess in the company!

Prakash Pandian - Global CIO and Digital Transformation Leader

It is rare that you come across a consultant with a sense of ownership and commitment in realizing your companies strategic objectives as with Danny. He was on the ground at a large manufacturing site, as an extension of my team, leading and driving an operational transformation.

Danny effectively and simultaneously managed multiple aspects of the transformation - from business process definition & harmonization, SAP configuration and organizational change management. He effectively managed different levels of the organization in influencing, selling and implementing lasting improvements.

You can always count on Danny to "say it like it is". He has high integrity, is an excellent team player and is an asset to any organization.

Adriano Ruppini - SAP PP/QM Consultant SAP IBP Consultant

Among all technical skills that are the basis of Danny's background, I would say that his stronger one is the ability to communicate - Listen, understand and speak. Looks simple but this is what makes him a great project manager.

He can (and he will) put himself in the shoes of the most simple operator/user of a company as well as the president's, in order to provide the best solution.

We worked together at AMRI in 2019, and I hope I will have the opportunity to work with him again.

Andrea Barani - IT Director

Hi Danny, it was a pleasure to work with you last year.

I learned a lot not only about SAP, but also about people management and process improvement.

Danny followed the development of SAP's MRP planning with the review, redesign and transfer of ownership of internal processes.

You are a professional but it was easy to establish a relationship of friendship through work and beyond.

What to say: this year it passed quickly giving an impulse that will not be forgotten by me and by the people who have collaborated with you.

Daniël Beckman - Contract Manager at Dimension Data Belgium

Hi Danny,

first I want to thank you for what I've learned from you, not only purely from the professional side but also from the human side as Leader (especially when you've alerted and guided me in order to improve my daily work)

I Also have to express how impressed I am by your various knowledges - this is very important for me as colleague

It was a real pleasure to work with you Danny and I wish you a lot of success in your future activities.

I would be very happy to cross again your road one of these days.

Victoria De Boeck - Communication & Learning Specialist bij Bildin

Danny has a fantastic personality combined with technical skills. He believes in other people's dreams and can translate those very well into specific goals and actions. He achieves this through open communication between all levels and giving positive

feedback, without losing his authenticity. Danny brings clarity in all the disorder by thinking a few more steps ahead. Thanks to that we come to sustainable and long term solutions that are supported throughout the whole organization, and that's a very important aspect!

I have learned a lot from Danny's attitude. He brings those ingredients together that are important in a world where organizations need to be more flexible and where we have to take care of employees. This combination is very hard for many organizations, but Danny can make this happen by his will power, people skills, efficiency, knowledge and his state of mind.

Thanks Danny for all the support and being yourself!

Thibaut Nemery - Sales & Marketing

Meeting Danny was the best thing that happened to me on a professional level. I was lucky enough to be able to work very close with him while he was a consultant at HeidelbergCement.

Aside from the humour that he subtly implies in his work, his insights in people, software and work flows are unmatched by anyone I ever met. His guidance helped me improve my professional as well as my personal life! Whether through song or anecdote, he always knows how to make one smile and gives straightforward advice while maintaining professional correctness.

One of the most important things he thought me was to keep going when faced with doubt. In short: Acting on his advice greatly improved my state of mind and as a consequence; my entire life from the moment we met!

Antoine Jacobs - District Operation Manager

Really good analyze and comprehension of really specific market.

Helps people to think differently and give them the best support to find adapted solutions.

Friendly with a good sense of humor, Danny makes the working atmosphere very good.

Bas Pije - CEO RMC NL / Algemeen Directeur

I got to know Danny as a very structured, organized and professional SAP consultant who helped us organizing our SAP business process. During these challenging period he was able to stick to a structural approach while pressure was high to go for opportunistic work-arounds. As such he helped us to keep focusing on the long term goals and benefits rather than go for a quick fix. Furthermore he is a team player and simply a very pleasant person to work with. All the best in your future career!!

Ronald Volkrijk - Manager Dispatch RMC NL bij HeidelbergMaterials

I've come to know Danny as a highly skilled individual, particularly due to his exceptional expertise in aligning business-related processes. His knowledge of IT systems connected to various SAP modules is also of a very high standard.

Moreover, I've experienced Danny as a pleasant person with whom one can have meaningful conversations on a personal level.

Danny, thank you for the past months—I'm certain our paths will cross again.

Brendan Liveris - Climate Optimist | Business Realist @ Heidelberg Materials

Danny worked with our business through a particularly challenging change management process. Over the year, he was instrumental in guiding the organization towards a greater focus on process and ensuring that those that needed to understand the new approach to working were properly trained, coached and supported. This was a great help for me personally as I was able to rely on Danny to get a positive result and bring our employees along, without having to give excessive guidance. Danny is one of those people in a workplace that you get concerned about losing because of the great value they add each day. If he had two focusses, they are people and process – both of which were of great asset to us.

Katelijne Vernijns - SAP Finance & Controlling Consultant

I had the pleasure to work with Danny at Heidelberg Cement Group. Danny is a very experienced consultant, with a huge amount of functional and technical knowledge regarding logistics. He always tried to improve both the company flows but also the internal communication methods. Further on, Danny is a very good communicator and always approachable for suggestions and/or questions.

Marcel Adriaans - Head of supply chain management NL bij HeidelbergCement

Danny is an experienced manager with detailed and practical knowledge of SAP, he easily adapts to the needs of the an organisation and is an asset to a project team.

Lyno Lidosurjo - Head of Global Customs and Trade Compliance at Novartis

Danny is an excellent programmer, he is also a very good business bridge to IT. He knows a lot in pharmaceutical area of expertise. His quality of work is highly appreciated. He committed in his work very well. I recommended him in any professional SAP IT Work.

Harry Vuijk - Quality Assurance Compliance Director

Danny is a great team worker as well as great Project leader. When a project /task has been determined and agreed, Danny is very committed to deliver high quality results. When difficulties arise, Danny always will look for solutions and will never give up until the desired result has been achieved.

A pleasure to work with!

Tjeerd Velstra - Business Engineer

It was a pleasure working with Danny in his role as project lead for SAP implementation at Sentiphar. He organized the work in line with the milestones and communicated well on progress and challenges. He was able to balance the needs of the different stakeholders. And Danny's humor helped to keep things in perspective :)

Pilar Garcia-Albertos - Associated Director, Supply Chain Management, Organon

I have worked with Danny in the COMET (SAP) implementation in my company. He is a great person to work with. He made some issues were solved fast and easily. He showed a strong team work, customer focus, foster collaboration and results

achievement.

When you get to connect with him, you'll discover an nice person with unique skills.

Andy Walker - Visionary Supply Chain Planning lead

Danny is an excellent project manager, very structured, deep knowledge of his subject matter and a nice bloke.

He is articulate and communicates very well to senior management and other stakeholders and delivers on his commitments.

I would recommend Danny.

Franz Escherich - Swiss Hub Finance Operations Lead at MSD International GmbH

Danny is a very experienced Project Manager, I worked with Danny on a highly complex SAP Implementation at Merck. Danny there was managing the Site Part for a large Distribution Center with extremely high quality !

Bert Elsen - Managing director | Pharma Logistics- Excellence center

A highly driven personality with a more than sound knowledge of logistics and related IT systems. Danny's experience can be welcome for any operations. He has capability to set up priorities and to find best solutions to manage exceptional situations.

Additional he has good people management skills that can be used when you want to hire him for project management and to coordinate a team. It was a nice experience to work with him.

Patrick Andries - Assoc. Director, Service Delivery/Management

Danny just delivered a top performance as Implementation Lead of a very complex SAP ECC roll-out at Sentiphar on behalf of MSD. While struggling with limited resources, extremely challenging deadlines and a high regional & global exposure, he managed to deliver a quality project to the company with a minimum of disruption to the business. The integration was seamless, thanks to Danny's pragmatic & result focused approach. Danny is one of the happy few that demonstrates an equally good grasp of the highest level business processes as of the most detailed programming coding within SAP. Combined with his natural people management skills, this versatility provides a huge asset to whomever desires to employ him. I for one would not hesitate to hire Danny for any upcoming project. I wish Danny all the best in his further career & hope to have the good fortune to work with him on any further initiative.

Hubert Bachelet - Assoc. Dir, Supply Chain Management, EUCAN

Within time constraints, Danny made a great job to allow us a successful go live in our project in Belgium.

David Ruiz - Digital Transformation: from strategy to execution

Danny's perfect mix of technical and business acumen made him very valuable to lead the implementation of SAP in one of our biggest facilities. Using one of his quotes "the proof of the pudding is in the eating" - he did deliver a sweet tasting result.

Ian Connell - IT Lead at Merck

Danny is one of the most capable consultants that I have worked with. He has demonstrated both a strong technical expertise as well as excellent understanding of the associated business requirements and processes. Danny not only works well within a team environment but can also lead those teams effectively to achieve the required results for both himself and the team. I've also found Danny to be an excellent communicator, always able to drive right to the main issues and willing to listen accept other opinions and ideas. I have no hesitation in recommending Danny's work and look forward to working with him again, myself, in the future.

Nicola Pinelli - SAP Global Integration Director at Organon

Danny completed the assigned project with an outstanding result. Even if he is a consultant he has been appointed as responsible for all the activities related to the site covering different roles of project manager, site responsible and also hands-on-the-system consultant. Very good result indeed.

Sahidul Hoque - Independent Computer Software Professional

I worked with Danny for several years. He is a genius in SAP implementation. A nice guy to work with. I wish to continue working with him for several years.

Geert Vleugels - General Manager Tjoapack

I experienced Danny as an uprightness person with an enormous professional mindset and attitude to drive result.

He always meets his targets; even if he has to work way beyond business hours.

The passion that he puts into his work must be considered as exceptional.

Danny distinguishes himself through his pragmatic nature and his solution-oriented mindset.

Another valuable aspect is that Danny is sublime in transforming a high complex case to a workable, reliable and sustainable solution for the customer.

I consider the time that I have worked with Danny as an enrichment period in my career.

Bart Mertens - Business Analyst at Organon

I had the pleasure of working with Danny to implement SAP in our pharmaceutical production environment. Danny was appointed lead of the ABAP development team to optimize their output and to improve SAP development efficiencies which were key to deliver the project on time and on budget.

In addition to managing the development team Danny was personally involved in the optimization and redesign of the SAP interface with our LIMS application to resolve crucial performance issues which were blocking product release.

I can definitely recommend Danny to anyone who is looking for a high skilled, problem focused and professional team player who can help them in getting get the absolute maximum out of their projects.

Milan Crvenkov - sales rep. at dialog

Danny Vandijck has highly appreciated managing skills. His people management style is highly appreciated on every level. Next to that he is ready to start working in Belgrade straight away based on his Serbian language and mentality.

The combination of his language skills, broad SAP skills and his management skills makes him quit unique.

Pierre Peeters - Information Technology and Services Consultant and Contractor

During the SAP implementation project at Schering-Plough Belgium (project during the period 2004-2005) Danny Vandijck worked on my project team as responsible team leader for ABAP development. He managed his team with great ability. He proved to be a very professional team leader who managed his team efficiently but at the same time he also came up with very innovative solutions for the problems encountered.

Danny is a highly skilled and very professional manager who was key to the success of the Schering-Plough project.

I recommend strongly to involve the services of Danny for any SAP related development project both for his managerial capabilities as for his technical expertise.

Pim Stolwijk - Senior Manager Services Operations

Working with Danny and Akquinet has proven to be a success. He perfectly balances the right level of detailed ICT knowlegde (both hardware and software) with a thorough understanding of logistics at an operational level. He is a real expert on SAP WM ECC 6.0, and more especially on TRM (task & resource mgmt). With his skills he brought added value to our complex project. I most certainly would like to work with Danny again in the future.

Dean Hunton - Provider of SAP project resources

I have been working on SAP projects with Danny since 2009 and have found him extremely professional to work with, not only as a managing director of Akquinet, his own consultancy, but also as a technical SAP consultant and technical project manager. Danny is very committed and delivery focused to both clients and partners. I cannot recommend highly enough the services of Danny and Akquinet.

Patrik Latin - Executive specialized in Global Supply Chain End to End operations

I can highly recommend Danny and Akquinet. My experiences with various SAP related Supply Chain projects which he handled have always been very positive. Danny knows his field of expertise very well, is creative and resourceful and delivers according to

expectations, actually he often surpasses these while the budget is not affected. If you feel that SAP is not giving you what you expected, contact Danny and I can guarantee you he will get it to work!

Peter Van Dyck - Associate Vice President Operations / Site Leader Organon Heist
I loved working with Danny as the development lead on my SAP Project. Danny acted like being an employee of our company, not as an outside consultant. I also like his common sense and result oriented attitude.

Guillaume Rivet - Associé chez BearingPoint

I've had the opportunity to work with Danny within a challenging SAP Roll-out project including the implementation of brand new warehouse management system based on the SAP platform. Danny is highly knowledgeable on very advanced functionality of SAP WM and SAP TRM (Task Resource Management), certainly a reference in this area in Europe.

His expertise coupled with a very good business knowledge of warehouse management processes have been definitely a key success factor for this project. Danny has as well very good communication and language skills, making the cooperation easy and efficient.

It would be a pleasure to work with Danny again in the future

Martin van den Westen - Qreditscoach

Consulting Danny and Akquinet for a complex SAP WM implementation was of real added value for your company. The knowledge of SAP WM is at very high and practical level. He was of great help to translate the practical and logistics needs to the rest of the international SAP consultant team. He is very reliable, competence, practical and eager to find the right solutions for his customer. Is clear in his communication and delivers on time.

Chris Van Dam - Global Logistics Operations Compliance Lead at MSD

Danny proved to be very reliable on a personal note and with his company in providing the required results in a timely fashion within budget. Great results within very limited timelines and no major problems during implementation time.

Steven Claus - Teamlead and lecturer at Thomas More university

Working with Danny and with akquinet for SAP consulting and implementation is a real added value for your company. The competence, eagerness to make the difference and customer service mindset to deliver a solution as much as possible within the standards of the system were the key cornerstones of our relationship.

Jef Berghmans - supervisor at Sentiphar

I worked with Danny on several occasions for different projects. Danny and his people are professionals in SAP. He analysed and updated our WM flows, TRM and miniload successfully.

Branko Jovanović - SAP Technical EWM Consultant at TUC RAIL

It has been a great honour and pleasure working with and for Danny during all these years: his professionalism, hard work, commitment, fast reactivity and pro-activity, and his highly rated human qualities make him a person you definitely want to do business with!

Katty Pepermans - Legal Services Property Mgmt

What I remember the most of my time working with Danny is the dedication and determination he showed every day in his job. He was instrumental in getting the product there where I needed it for my mass events and trade shows. Just like for me, every detail counted!

Bart Remels - Cyber & Information Security

Danny is a very dedicated and a great boss working for, a huge knowledge of SAP/ABAP and Logistics. You always can count on him, no matter what, even on private ways.
