## 10.5L STAINLESS STEEL MILK URN

The 10.5L stainless steel milk urn is a reliable and durable container designed to hold and serve a large quantity of milk. Its spacious 10.5-liter capacity makes it suitable for various settings, such as cafes, catering events, and self-serve stations. The stainless steel construction ensures excellent heat retention, keeping the milk at the desired temperature for an extended period. The material is also easy to clean and maintain, making it a practical choice for busy foodservice environments. The milk urn is typically equipped with a secure lid and a spigot for easy dispensing, minimizing spills and mess. Its sleek and professional design adds a touch of sophistication to any beverage station, enhancing the overall presentation of milk-based drinks.

## 10.5L STAINLESS STEEL MILK URN WITH FLAT BASE

The 10.5L Stainless Steel Milk Urn is a durable and reliable container designed to keep milk fresh and at the desired temperature. With a generous capacity of 10.5 liters, it is suitable for serving milk at events, buffets, cafeterias, or any setting that requires a large quantity of milk. The stainless steel construction ensures excellent insulation and helps maintain the milk's temperature for an extended period. The urn often comes with a secure lid and a spigot for easy pouring, preventing spills and messes during service. Its sleek and hygienic design makes it easy to clean and maintain, making it a practical choice for commercial use.

## VEGETABLE & FRUIT JUICER

A versatile and high performance juicer designed to extract juice from a wide range of fruits and vegetables. Its powerful motor and efficient juicing mechanism ensure maximum juice yield with minimal waste. The juicer is equipped with a dual-stage extraction process, which first crushes the produce and then presses it to extract every last drop of juice. Its slow juicing speed helps retain essential nutrients, enzymes, and antioxidants, resulting in healthier and more nutritious juices. Easy to assemble, use, and clean, making it a user-friendly and practical choice for home juicing enthusiasts and health-conscious individuals.

## COMMERCIAL JUICER

The electric juicer is a convenient and efficient appliance designed specifically for juicing. With its electric motor, it automates the juicing process, making it quick and easy to use. The juicer is typically equipped with a reamer or cone-shaped attachment, which effectively extracts the juice from the fruits. Its compact size and lightweight design make it easy to store and move around in the kitchen. The electric orange juicer is a practical tool for making freshly squeezed orange juice and other citrus beverages, adding a burst of natural flavor to your daily routine.

## SINGLE HEAD 5L JUICE DISPENSER

The single-head 8L juice dispenser is a practical and efficient solution for serving refreshing beverages in smaller to medium-scale settings. With its 8-liter capacity, it can hold a substantial amount of juice, making it suitable for various occasions and events. The single dispenser head allows for easy dispensing of a single type of juice or drink, making it simple to operate and maintain. The transparent container provides visibility to the beverage inside, enticing customers to quench their thirst with colorful and enticing drinks. Equipped with a spigot or lever, it ensures a smooth and mess-free pouring experience. The compact size and durable construction make the single-head 8L juice dispenser a valuable addition to cafes, restaurants, offices, or home gatherings where refreshing beverages are in demand.

## 16L DOUBLE HEADS JUICE DISPENSER

The double-head 16L juice dispenser is a versatile and high-capacity machine designed to cater to larger gatherings and events. With two dispenser heads and a total capacity of 16 liters, it offers the flexibility to serve different types of juices or beverages simultaneously. The transparent containers allow guests to see the colorful drinks, creating an attractive display that encourages them to try various options. Each dispenser head is equipped with a spigot or lever, ensuring easy and mess-free pouring for both guests and staff. The double-head design is perfect for busy venues, such as buffets, banquets, catering events, and large restaurants, where a constant supply of refreshing beverages is required. With its efficient operation and generous capacity, the double-head 16L juice dispenser provides a delightful and convenient beverage service experience for any occasion.

## TRIPLE HEAD JUICE DISPENSER

The triple-head juice dispenser is a versatile and high-capacity machine designed to offer a wide range of beverage options. With three dispenser heads, it allows for the simultaneous serving of multiple juices, iced teas, lemonades, or other drinks, catering to diverse customer preferences. Each head is typically equipped with a spigot or lever, ensuring easy and mess-free pouring. The transparent containers provide an enticing display of the colorful beverages, encouraging guests to explore various options. The generous capacity of the triple-head juice dispenser makes it ideal for large gatherings, events, cafeterias, buffets, and catering services. Its efficient operation and user-friendly design streamline beverage service, making it a valuable addition to any food establishment or self-serve station. The triple-head juice dispenser ensures a delightful and refreshing beverage experience for all guests.

## SINGLE HEAD MILK SHAKER

The single-head milk shaker is a compact and efficient machine designed for shaking milk or other beverages to create frothy and creamy textures. With its single head, it can handle one drink at a time, allowing for precise control over the shaking process. The machine is typically equipped with variable speed settings, enabling baristas or users to adjust the intensity of the shake based on their preferences. The milk shaker is commonly used in cafes, coffee shops, and restaurants to prepare milkshakes, iced coffees, and other frothy beverages. Its user-friendly design and straightforward operation make it easy to use, even for those new to the process. The single-head milk shaker is an essential tool for achieving the perfect consistency and texture in milk-based drinks, ensuring customer satisfaction with each serving.

## DOUBLE HEAD MILK SHAKER

The double-head milk shaker is a versatile and efficient machine designed to shake multiple beverages simultaneously, increasing productivity and reducing waiting times. With its two shaker heads, it can handle two drinks at once, making it ideal for busy cafes, coffee shops, and restaurants. Each head typically comes with adjustable speed settings, allowing baristas or users to customize the intensity of the shake for different beverages. The machine ensures consistent and frothy textures in milkshakes, iced coffees, and other milk-based drinks. Its user-friendly design and easy operation make it suitable for both experienced baristas and novices. The double-head milk shaker streamlines the preparation process, providing a quick and convenient solution for delivering delightful frothy beverages to customers.

## SINGLE HEAD SLUSH DISPENSER

Experience the future of frozen beverages with the Single Head Slush Dispenser. This dispenser offers convenience in a sleek design, ideal for busy hotel environments. User-friendly and efficient, it gives you precise control over slush consistency and temperature. Advanced technology ensures quick freezing and optimal texture for delightful slushies and cocktails. Its compact footprint fits seamlessly into any space. Versatility is key: the single head functionality lets you serve various flavors, catering to diverse tastes. It's an essential addition for hotel purchasing managers, executive chefs, and general managers looking to enhance their offerings. Each dispenser includes a QR code linking to detailed information, streamlining access to essential specs. Elevate your beverage offerings, captivate customers, and unlock creative possibilities with the Single Head Slush Dispenser - your ticket to icy profits.

## DOUBLE HEAD SLUSH DISPENSER

Elevate your beverage service with the Double Head Slush Dispenser - expertly crafted for dynamic hotel environments. Designed for precision and speed, it offers meticulous control over slush consistency and temperature. Fueled by advanced technology, it guarantees swift freezing and impeccable texture for enticing slushies and cocktails. Its compact design effortlessly integrates into any space. Flexibility takes the spotlight: featuring double head functionality, it empowers you to serve a variety of flavors, catering to diverse preferences. A must-have for hotel purchasing managers, executive chefs, and general managers aiming to enhance their offerings. Discover more details by scanning the adjacent QR code. Unlock comprehensive specifications effortlessly and elevate your beverage game, captivating customers and tapping into unlimited creative potential with the Double Head Slush Dispenser - your pathway to frozen profitability.

## 36L TRIPLE HEADS SLUSH DISPENSER

D36L Triple Heads Slush Dispenser - a versatile addition perfect for restaurants, bakeries, and more. Designed for precision and speed, this dispenser gives you control over slush consistency and temperature. Utilizing cutting-edge technology, it ensures swift freezing and impeccable texture for delectable slushies and frozen beverages. Its compact design integrates seamlessly into diverse spaces. Embrace variety: with triple head functionality, you can offer an array of flavors that appeal to different palates. A must-have for restaurant owners, bakers, and culinary enthusiasts looking to elevate their menus. Scan the QR code for detailed specifications. Elevate your culinary offerings, captivate your customers, and explore endless creative possibilities with the 36L Triple Heads Slush Dispenser - your gateway to chilled profitability.

## ICE CRUSHER 6 KG/ 8KG

Tackling a challenge frequently encountered in Fiji's warm climate, this ice crusher effortlessly transforms ice into the perfect consistency. Choose between the 6kg and 8kg options, thoughtfully catering to the specific needs of Fijian establishments. Its sleek design harmonizes with the vibrant ambiance of Fijian kitchens. Celebrate versatility: a pivotal addition for Fijian restaurant owners, bakers, and culinary enthusiasts. This ice crusher addresses the issue of maintaining icy delights in the heat of Fiji. It masterfully crafts crushed ice, essential for crafting refreshing traditional beverages and cooling desserts that soothe the tropical soul. Discover more by scanning the QR code - a gateway to comprehensive details. Elevate your culinary offerings, enhance your beverage creations, and embrace the ingenious solution of the Ice Crusher 6kg/8kg - your trusted ally in cultivating the finest Fijian culinary experiences.

## STAINLESS STEEL COMMERCIAL JUICER

Answering the need for streamlined juicing processes, this commercial juicer offers a reliable solution for producing fresh juices with ease. Tailored for the discerning tastes of Fiji's culinary scene, it empowers restaurants, resorts, and bakeries to effortlessly incorporate refreshing beverages into their menus.

Functionality takes the forefront: the Stainless Steel Commercial Juicer is designed to extract the pure essence of fruits, allowing establishments to offer an array of beverages that capture the vibrant flavors of the Fijian landscape.

Find detailed specifications by scanning the QR code, providing essential insights for your decision-making process. Enhance your culinary offerings, expand your beverage choices, and embrace the utility of the Stainless Steel Commercial Juicer - a valued asset in shaping the authentic taste of Fiji's culinary experiences.

## 6.5L BRASS PLATED MILK URN

Addressing the demand for efficient milk storage and service, this milk urn offers a solution that harmonizes with the operational requirements of hotels, resorts, restaurants, and bakeries. Its thoughtful design ensures the seamless preservation and dispensing of milk-based beverages. Functionality is key: the 6.5L Brass Plated Milk Urn is equipped to meet the unique demands of Fiji's hospitality industry. With its distinctive brass-plated exterior, it seamlessly merges functionality with a touch of elegance, adding a refined touch to beverage presentation. For detailed specifications, simply scan the QR code, granting access to essential insights for informed decisionmaking. Elevate your culinary offerings, enhance your beverage selection, and embrace the practicality of the 6.5L Brass Plated Milk Urn - an indispensable asset in shaping the authentic taste of Fiji's culinary experiences.

## SINGLE TANK, ELECTRIC FRYER (4L/ 6L/ 8L & 12L)

Discover the versatile Single Tank Electric Fryer, sizes 4L to 12L – a culinary essential for Fiji. Efficient and compact, it's ideal for hotels, resorts, restaurants, and bakeries. ## FREESTANDING UPRIGHT SOLID DOOR FREEZER

The 1 Door Freestanding Upright Solid Door Freezer is a compact and space-saving freezer designed for small kitchens or tight spaces. Its single solid door provides efficient insulation to maintain consistent internal temperatures, keeping your frozen foods at optimal conditions. The freezer offers easy accessibility to frozen items with its upright design, allowing users to organize and retrieve items with convenience. With its freestanding feature, it can be placed anywhere in the kitchen without the need for built-in installation. The freezer may also come equipped with adjustable shelves to accommodate various food items and a user-friendly control panel for temperature adjustments.

## FREESTANDING UPRIGHT SOLID DOOR FREEZER

The 2 Doors Freestanding Upright Solid Door Freezer is a spacious and versatile freezer perfect for commercial kitchens and establishments with high storage demands. With two solid doors, it allows separate access to each compartment, minimizing temperature fluctuations when retrieving frozen items. The freestanding design offers flexibility in placement and easy installation without the need for built-in construction. The freezer's solid door construction ensures excellent insulation, maintaining consistent internal temperatures for optimal food preservation. Equipped with adjustable shelves, it provides ample storage options to accommodate a wide variety of frozen goods and ingredients.

## FREE STANDING UPRIGHT GLASS DOOR FREEZER

The Free Standing Upright Glass Door Freezer is a versatile and efficient appliance designed for commercial use in various settings such as convenience stores, grocery shops, and restaurants. With its free-standing design, it can be placed conveniently without the need for additional installation. The freezer typically features a large, transparent glass door, providing easy visibility of the contents inside, making it easier for customers and staff to find and access frozen products. It offers ample storage space for a wide range of frozen items, helping businesses keep a diverse inventory of frozen goods. The Free Standing Upright Glass Door Freezer is an essential tool for preserving and displaying frozen products while maintaining a consistent and controlled temperature to ensure long-lasting freshness.

## FREE STANDING UPRIGHT GLASS 2 DOOR FREEZER

The Free Standing Upright 2-Door Glass Door Freezer is a versatile and practical appliance designed for commercial use in various food establishments and retail settings. With its free-standing design, it can be easily placed and moved as needed without the requirement for additional installation. The freezer features two transparent glass doors, offering excellent visibility of the frozen items stored inside, making it convenient for customers and staff to locate and access products. Its two-door configuration provides ample storage space and allows for better organization of frozen goods, making it ideal for businesses with a diverse inventory. The Free Standing Upright 2-Door Glass Door Freezer is an essential tool for preserving and displaying frozen products while maintaining a consistent and controlled temperature to ensure prolonged freshness and quality.

## FREE STANDING UPRIGHT GLASS 3 DOOR FREEZER

The free-standing upright glass 3-door freezer is a versatile commercial appliance designed for displaying and storing frozen goods. With its three glass doors, it provides easy visibility and access to the contents inside, making it suitable for retail environments. The freezer offers ample storage capacity while showcasing products, making it ideal for supermarkets, convenience stores, or food retailers. Its modern design and efficient cooling system make it a valuable addition to businesses looking to present their frozen merchandise attractively.

## SOLID DOOR CHEST FREEZER

The Solid Door Chest Freezer is a reliable and spacious freezer designed for storing frozen goods in bulk. Its chest-style design offers maximum capacity, making it suitable for households, commercial kitchens, and retail businesses. The solid door provides excellent insulation, ensuring consistent temperature maintenance to keep the contents frozen for an extended period. The freezer's user-friendly features may include a temperature control dial and a convenient storage basket for easy organization of smaller items

## GLASSTOP ISLAND FREEZER

Glass top island freezers offer a visually appealing and convenient solution for displaying frozen products in retail settings. The glass top provides a clear view of the frozen items, allowing customers to browse and select their desired products easily. These freezers are designed with energy-efficient cooling systems to maintain a consistent temperature and ensure optimal preservation of the frozen goods. The island design with a glass top allows for 360-degree access, making it ideal for busy stores with high customer traffic.

## GLASS TOP FLAT CHEST FREEZER

The flat top glass island freezer is a versatile and attractive display option for showcasing frozen products in retail environments. With a flat glass top, it offers a clear and unobstructed view of the frozen goods from all angles, allowing customers to browse and select items effortlessly. The island design provides ample storage capacity while occupying minimal floor space, making it a practical choice for maximizing product visibility. Equipped with energy-efficient cooling technology, this freezer maintains a consistent temperature to keep the frozen products fresh and appealing to customers throughout the day.

## FREE STANDING UPRIGHT GLASS DOOR FREEZER

The Free Standing Upright Glass Door Freezer is a versatile and efficient appliance designed for commercial use in various settings such as convenience stores, grocery shops, and restaurants. With its free-standing design, it can be placed conveniently without the need for additional installation. The freezer typically features a large, transparent glass door, providing easy visibility of the contents inside, making it easier for customers and staff to find and access frozen products. It offers ample storage space for a wide range of frozen items, helping businesses keep a diverse inventory of frozen goods. The Free Standing Upright Glass Door Freezer is an essential tool for preserving and displaying frozen products while maintaining a consistent and controlled temperature to ensure long-lasting freshness.

## MULTI DECK DISPLAY CHILLER

Showcase delicacies with the Multi Deck Display Chiller – a stylish choice for presenting chilled treats in Fiji. Versatility shines through: from delectable desserts to refreshing beverages, this chiller enhances your offerings. Its user-friendly features ensure easy access and temperature control. Scan for comprehensive specifications. Elevate your presentation with the Multi Deck Display Chiller – a valued asset in shaping Fiji's authentic flavors.

## GLASS DOOR MINI BAR

Showcase beverages with the Glass Door Mini Bar – a compact and stylish addition for convenient access in Fiji’s hospitality spaces. Designed for functionality, this mini bar seamlessly fits into hotel rooms, resorts, and guest accommodations. Its glass door design offers visibility and easy selection. Versatility shines through: from chilled refreshments to quick snacks, this mini bar enhances guest convenience. Its user-friendly features ensure efficient operation and temperature control. Scan for comprehensive specifications. Elevate guest experience with the Glass Door Mini Bar – a valued asset in shaping Fiji’s authentic hospitality.

## 2 SLIDING DOOR BACK BAR COOLER

The 2 sliding door back bar cooler is a compact and practical refrigeration solution, perfect for establishments with limited space. Its two sliding glass doors provide easy access to chilled beverages without taking up excessive room in tight environments. The adjustable shelves within the cooler offer versatility in organizing different types of drinks, from bottled beverages to canned refreshments. Its efficient cooling system and sleek design make it a valuable addition to bars, restaurants, and cafes, ensuring that customers are served with cold drinks while optimizing the available space.

## 3 SLIDING DOOR BACK BAR COOLER

The 3 sliding door back bar cooler is a versatile and efficient refrigeration unit tailored for bars and restaurants. With its three sliding glass doors, it offers easy access to a wide variety of beverages while saving space. The cooler’s adjustable shelves allow for customizable storage, accommodating various bottle sizes and types. Its sleek design not only enhances the overall ambiance but also serves as an attractive display for customers, making it a practical and appealing addition to any hospitality setting.

## FREESTANDING WINE COOLER

The freestanding wine cooler is a stylish and functional appliance designed to preserve and showcase wine collections. Its standalone design means it can be placed anywhere without the need for built-in installation. With precise temperature controls and UV-resistant glass doors, it creates an optimal environment for storing wines, protecting them from temperature fluctuations and light exposure. The freestanding wine cooler is an excellent addition to homes and establishments that value both wine storage quality and aesthetic appeal.

# COOLERS AND FREEZERS

## ICE MACHINE

The White Multi Deck Display Chiller is a refrigeration unit designed for commercial use in supermarkets, convenience stores, and other retail settings. Its sleek and clean white exterior provides an attractive and modern appearance, complementing the aesthetics of any store. The chiller features multiple shelves or decks with transparent glass doors, allowing customers to easily view and access the displayed products. With its efficient cooling system, the chiller maintains a consistent temperature, ensuring that the items remain fresh and appealing to customers. The white Multi Deck Display Chiller is a practical and eye-catching solution for showcasing a variety of perishable goods, enhancing product visibility, and driving sales in retail environments.
