Quick Intro

At LT Electro-Intel, we specialize in delivering safe, high-quality, and efficient electrical solutions across residential, commercial, and industrial projects. Our experienced team ensures every project meets SANS standards — with reliability you can trust.

ABOUT US

Founded by Tsosheletso Welcome Lekalakala, LT Electro-Intel is a registered South African electrical company based in Mokopane, Limpopo.

We provide expert electrical services with professionalism, integrity, and a passion for community development.

Our mission is to empower local communities through sustainable, safe, and innovative electrical systems — from basic installations to solar energy solutions.

Why Choose Us

- Fully certified and registered company
- Quality workmanship and reliable service
- Affordable pricing with free quotations
- Committed to community electrification and empowerment

SERVICES

Our Comprehensive Electrical Services Include:

****Electrical Installations & Maintenance****

Residential, commercial, and industrial — wiring, rewiring, distribution boards.

****Electrical Inspections & Certificates of Compliance (COC)****

Compliance with all SANS regulations.

****Solar Systems****

Solar installations, backup power, and hybrid systems.

****Automation & Security****

Gate motors, garage doors, alarm systems.

****HVAC Solutions****

Air conditioning and ventilation installations.

COMMUNITY ELECTRIFICATION PROJECT

Our vision goes beyond business — it ' s about lighting up communities. Through our Community Electrification Project, we aim to connect 63 households within three years in rural Mokopane and surrounding areas.

With the right equipment and funding, this project will provide sustainable power access and create local employment opportunities.

If you ' d like to partner, sponsor, or learn more, contact us today.

REVIEWS

“ Professional and friendly service. The installation was neat and on time! ” – M. Lepondo

“ Excellent workmanship. LT Electro-Intel truly cares about quality. ” – S. Kutumela
