English Conversation Circle

Speak with confidence. Connect with purpose.

The English Conversation Circle is a supportive, interactive program from AlphaLogic Language and Career Development Services. It helps adult English language learners strengthen their spoken communication skills for work, training, daily life, and community participation.

Through guided conversation and practical speaking activities, participants build confidence, fluency, and the ability to use the English skills they already have in real-world situations.

How We Learn

Lessons use a practical and engaging approach: learners practise English through partner activities, small-group discussions, role-plays, and guided conversation.

Every class includes:

- Adult-life and workplace-relevant topics
- Speaking and listening practice
- Real-life communication tasks
- Support for different confidence and language levels
- Opportunities to build vocabulary and communication strategies
- Instructor observation and feedback

The program prioritizes student talking time in a respectful, low-pressure environment where participants can practise, make mistakes, ask for clarification, and grow their confidence.

Assessment and Progress

Before joining the program, participants complete an in-person speaking assessment. This helps identify current communication strengths, speaking proficiency, and areas for development.

Follow-up speaking assessments are completed every four weeks. Progress is documented through assessment results, attendance, participation, and instructor observations.

Program Duration

The English Conversation Circle curriculum includes up to 26 weekly lessons, with one 90-minute session each week.

Participants do not need to commit to the full 26-week program. They may participate for the length of time that best supports their individual learning goals.
