

**Transforming
Hydrocarbon
Transportation with a
Superior, Cost Effective
Solution**

Hydrocarbon Transportation Solution

Elite Energy's Gas & HC Liquids Transportation application manages the nomination, transportation, storage and delivery covers from contract creation through to final invoicing. Designed with cost-efficiency and operational excellence in mind, this subscription-based, evergreen solution reduces implementation capital expenditure while ensuring continuous software upgrades and regulatory compliance.

With best-in-class ongoing support, this comprehensive application integrates seamlessly with Measurement Management Systems, Data Historians, and Enterprise Systems such as SAP & Oracle Financials, contributing to integrated operations and enhanced decision-making.

Key Features

Lower Cost, Higher Value

A subscription-based pricing model eliminates large upfront costs, offering predictable operational expenses and continuous improvements.

Evergreen & Future-Proof

No costly upgrades—our solution evolves with the industry, adapting to regulatory changes and emerging best practices.

Customer Portal for Self-Service:

Empowers shippers and buyers to manage nominations, contracts, and invoices, Complementing on commercial operations and finance teams.

Proactive Notifications & Mobile Access

Responsible personnel receive real-time alerts, allowing for immediate action from any device.

Comprehensive Dashboards & Reporting

Operators gain real-time visibility into gas transportation metrics, enabling data-driven decision-making.

Regulatory Compliance & Auditing

The system ensures compliance with regulatory requirements, featuring built-in audit trails and automated reporting functionalities.

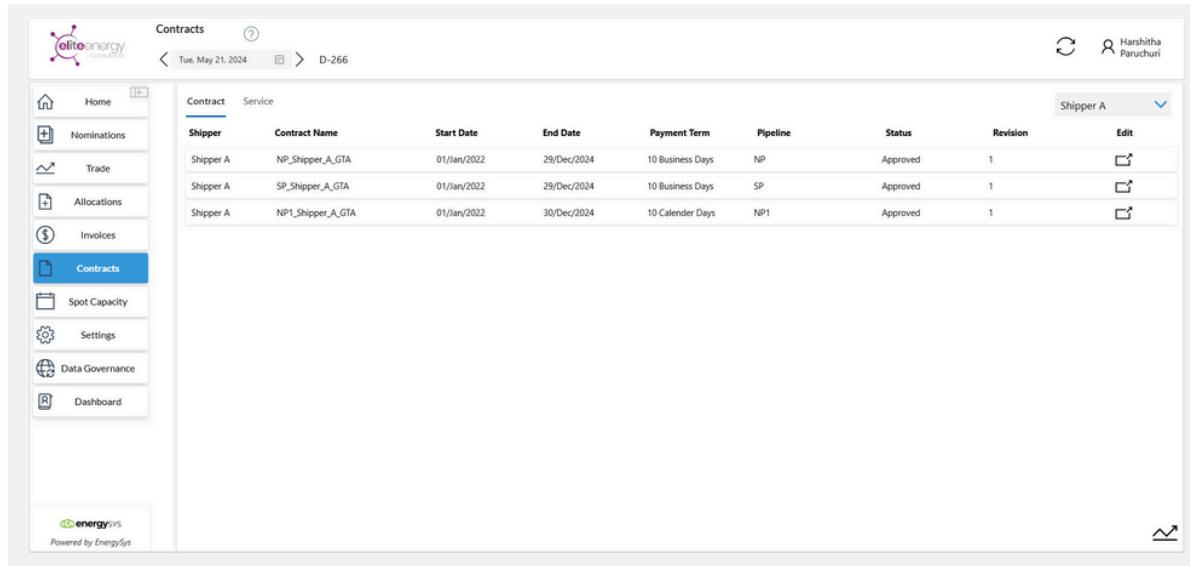

Applications and Module

Contract Management

Tracks and manages gas transportation and storage contracts. A dedicated self-service portal allows authorised users to create, update, and approve contracts, reducing administrative burden.

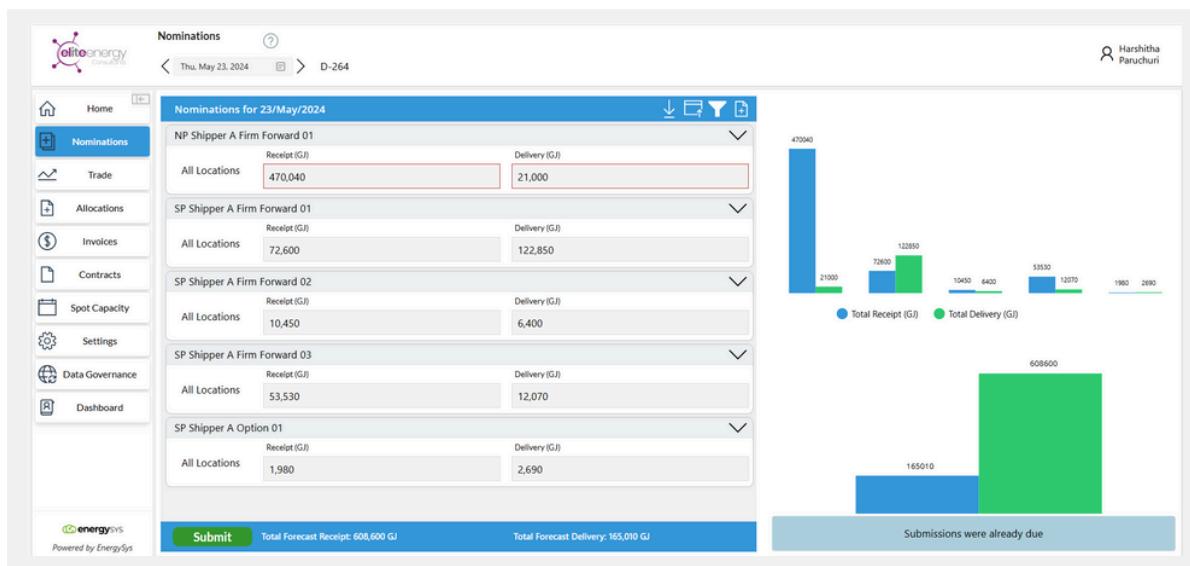

The screenshot shows the 'Contracts' module of the elite energy system. The left sidebar includes links for Home, Nominations, Trade, Allocations, Invoices, Contracts (which is selected and highlighted in blue), Spot Capacity, Settings, Data Governance, and Dashboard. The main content area displays a table of contracts with columns for Shipper, Contract Name, Start Date, End Date, Payment Term, Pipeline, Status, Revision, and Edit. Three contracts are listed for 'Shipper A': NP_Shipper_A_GTA, SP_Shipper_A_GTA, and NP1_Shipper_A_GTA, all marked as 'Approved' with Revision 1. The top right shows the user 'Harshitha Paruchuri'.

Nominations Application

Allows shippers to submit gas nominations at various sites, validated against capacity and timing constraints. Automated notifications ensure rapid approval or rejection responses.

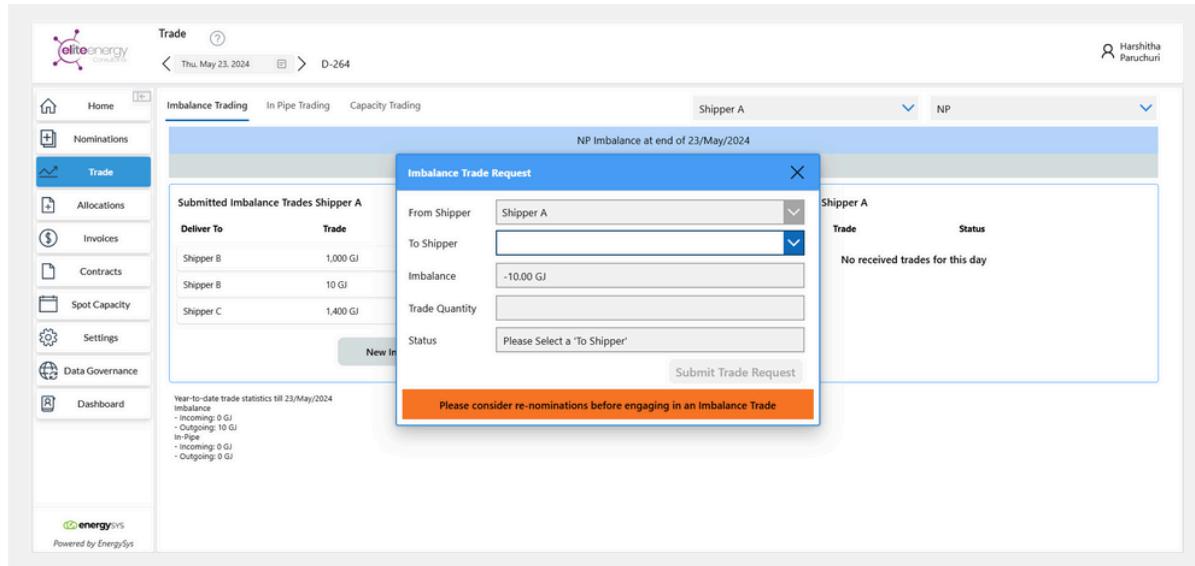

The screenshot shows the 'Nominations' module. The left sidebar includes links for Home, Nominations (selected and highlighted in blue), Trade, Allocations, Invoices, Contracts, Spot Capacity, Settings, Data Governance, and Dashboard. The main content area shows 'Nominations for 23/May/2024' for 'NP Shipper A Firm Forward 01' through 'SP Shipper A Option 01'. Each nomination row has 'Receipt (GJ)' and 'Delivery (GJ)' fields. To the right is a bar chart comparing 'Total Receipt (GJ)' and 'Total Delivery (GJ)' across different categories. A message at the bottom right says 'Submissions were already due'. The top right shows the user 'Harshitha Paruchuri'.

Applications and Module

Trading Application

Facilitates capacity and imbalance trading between shippers, ensuring accurate transaction recording and seamless billing integration.

Applications and Module

Allocations Application

Validates and allocates gas in line with contractual obligations, ensuring accurate billing and reporting.

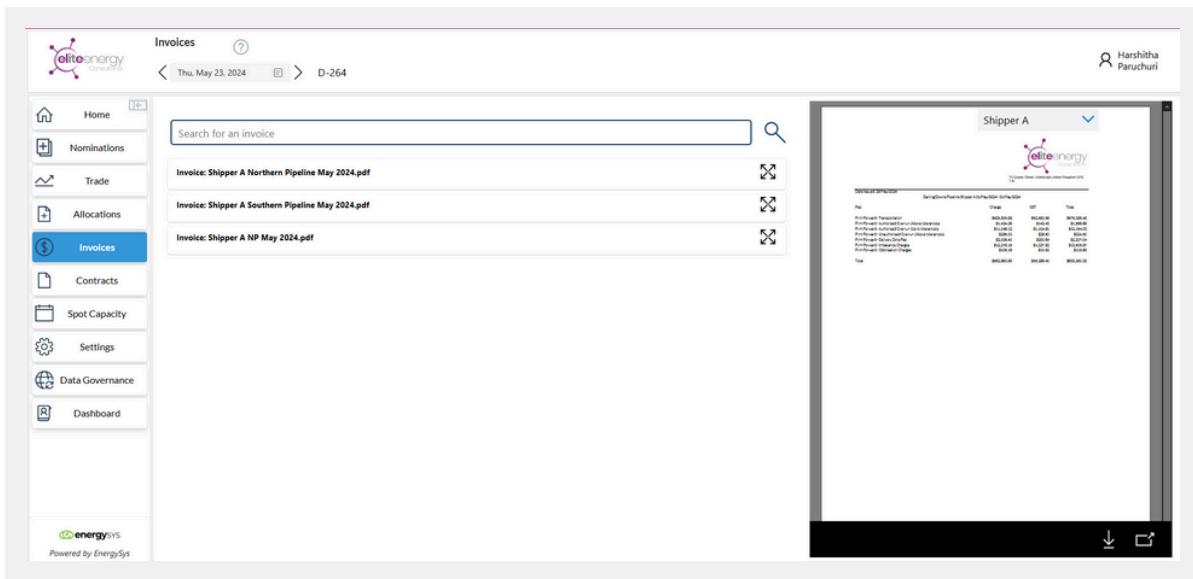

The screenshot shows the Allocations application interface. The left sidebar includes links for Home, Nominations, Trade, Allocations (which is selected and highlighted in blue), Invoices, Contracts, Spot Capacity, Settings, Data Governance, and Dashboard. The main content area displays a table with columns: Gas Date, Product, Location, Shipper, Contract, Nominated Quantity (GJ), Scheduled Quantity (GJ), and Allocated Quantity (GJ). The table data is as follows:

Gas Date	Product	Location	Shipper	Contract	Nominated Quantity (GJ)	Scheduled Quantity (GJ)	Allocated Quantity (GJ)
24/May/2024	Gas	River	Shipper A	Shipper_A_Firm_Forward_01	12,600	12,600	13,529
24/May/2024	Gas	River	Shipper A	Shipper_A_Firm_Forward_01	0	0	0

Invoicing Application

Streamlines billing with flexible tariff configurations, auditable historical records, and automated invoice generation.

The screenshot shows the Invoicing application interface. The left sidebar includes links for Home, Nominations, Trade, Allocations, Invoices (which is selected and highlighted in blue), Contracts, Spot Capacity, Settings, Data Governance, and Dashboard. The main content area displays a list of invoices with a search bar and a detailed view of an invoice for 'Shipper A'.

Regulatory & Commercial Reporting

Comprehensive reporting capabilities support regulatory compliance and commercial transparency, with custom report generation available in multiple formats.

Why Choose Elite Energy?

Industry-Leading Expertise:

With decades of experience in Gas Transport Commercial Operations, Customer Billing, and Regulatory Reporting, we deliver solutions tailored to industry needs.

Unmatched Support & Service:

Our clients receive ongoing assistance from domain experts, ensuring smooth operations and fast issue resolution.

Scalable & Adaptable:

Whether managing a single pipeline or a global gas transportation network, our solution scales effortlessly to meet your business needs.

Digital Innovation:

Leveraging cutting-edge technology, we drive automation, integration, and efficiency, reducing operational bottlenecks and enhancing decision-making.

Experience the Future of Gas Transportation

Elite Energy offers the most efficient, cost-effective, and future-ready gas transportation solution on the market. Designed for seamless integration, our platform provides:

Smart automation to streamline operations

Expert support to ensure compliance and efficiency

Flexible subscription model for cost optimisation

Stay ahead of the curve and maximise your operational potential. Contact us today for a demo and see how our solution can transform your business!
